Assignment 1

Ques Discuss the features of JavaScript

Ans

Features of JavaScript are :-

(a) Object oriented script language  
This feature built in object as Java script has a runtime object. It is mostly used for features like Polymorphism which is equality of taking a subject in many forms. Eg:- Java script and Visual Basic etc.

(b) Client Edge Technology  
The client is basically a term used for the browser in respect of user. The data on browser gets uploaded by a client which is later used by user in browser form. The user get access to client through a web browser for surfing & interacting through websites. The client edge technology in Java script allows client to have full control over content which is being updated in browser.
