TO WHOM IT MAY CONCERN

It is with great pleasure and enthusiasm that I am writing to endorse Mansi Rastogi's application to your organization/program. I, Lehar Tawde, am the Co-Founder of ConnectEd Technologies LLP, which is an educational-technology company making quality education accessible and affordable to underprivileged youth across India. I hope my perspective will be helpful to you as you evaluate her candidature.

With us, Mansi worked for two months as a Quality Checking Intern, wherein she verified the accuracy and quality of scripts that were further developed into the video lectures that are deployed in schools we are associated with. These lectures not only assist the teachers in these schools where the teacher to the student ratio is quite skewed but also help the children to learn in a more interactive way. These video lessons also add an extra learning element and at the same time make this learning process fun. So, the work of quality checking is of prime importance in our effort to revolutionize the learning in those classrooms. Our learning technology is being employed in the most densely populated schools of Maharashtra and we are being supported by the Government of Maharashtra under 'Digital India'.

During her recruitment interview, Ms. Mansi expressed a strong desire to work with us and promised to not disappoint. We found her to be a quick learner and a hard-working girl, who pays attention to instructions and takes feedback quite constructively. She will be coming to you with the above-mentioned experience and qualities, to say the least, and I hope that you will accept her application to your organization/university. Feel free to contact me if you require further information.
