THE ESSENCE OF GREEN SKILLS

In this world of endless wonder, where nature's gifts are forever,
Green skills emerge, shimmering bright, guiding us towards a sustainable light.
With hands that plant and nurture, green skills sow seeds of a greener future,
They harness the power of wind and sun,
Leading us to a world of peace and joy,
From ancient wisdom to modern science, green skills break through barriers and fears,
Designing buildings that breathe and save,
Reducing the impact we have on this place.
They teach us to reduce, reuse, recycle, turning waste into resources without a single tear,
For green skills are the bridge we seek,
Connecting the present with sustainable peace.
So let us hold these skills so dear, embracing the lessons make it clear,
That our choices, our actions and our might,
Can shape a sustainable world, shining bright.
With green skills as our guiding star, we will journey on towards a world beyond,
Where harmony with nature is the rule, and a sustainable future, we all can see.

Mithal Chaudhary
BA 2nd yr (Hons course)

Like a small plant,
Newborn blood is,
So soft the bones,
Muscles not grown yet,
A bizarre shine on the face,
The face that is miles away from the real phase of the motherland

As time passes by,
Strengthened,
Now, the branches started taking new shapes,
Thickened, strong, and solid now the body has become.

But, a temporary bivouac of glossiness subsides
As the darkness of war presides
Happiness subsides as low tide,
Greenery ends up for it is chopped out,
Red drops spattered all around,
A young mind, bewildered
Filled with the horizon of paradoxical noises.

Nature is so blissful to us,
Very kind it remains,
But, then is squeezed

"Harmony With Nature" Unleashing the power of Green Skills

— Megha Thakur

Green skills, oh so fine,
In harmony with nature they shine.
Sustainable development, is what we must follow
and stand for.
With renewable energy and eco-friendly design
we build a prosperous future, where nature will always shine.

Green skills, oh so fine,
In harmony with nature they shine.
Imagine a world without the pollution and plastic
and with the flourishing nature and technology, won't it be fantastic?
In a world that needs healing, green skills rises
with knowledge and passion they open our eyes.

Green skills, oh so fine,
In harmony with nature they shine.

In a world so green, where hope takes flight,
Green skills shine, guiding us towards light.
With every action, big or small,
We shape a sustainable world for all.

Through eco-friendly farming, soil rich and pure,
Harvesting the bounty, a future secure.
Renewable energy, a powerful force,
Harnessing the elements, staying on course.

Waste management, a mindful chore,
Reducing, reusing, waste no more.
