AWARENESS SESSION ON WOMEN ENTREPRENEURSHIP

On February 14, 2024, The Financial Lab cum Incubation Centre of St. Bede's College in collaboration with the SkillLabs organized an Awareness Session on Women Entrepreneurship for the students of B.Com and BBA. The Resource person for the session was Dr. Himesh Sharma, CEO of SkillLabs. It was quite an interactive session where the speaker talked about the importance of Women Entrepreneurs. Dr. Himesh urged students to participate in activities beyond the classroom and to pursue entrepreneurship. He also emphasized the significance of increasing women's participation in the entrepreneurial ecosystem. He also touched upon various important aspects of Entrepreneurship such as Innovation which requires Invention and commercialization. It was a very useful session for the students as they got to know about many new things related to entrepreneurship.

CRYPTOCURRENCY

Cryptocurrency, the latest hot topic in the world of finance has not only proved to be revolutionary in making transactions but also an emerging challenge to the traditional financial banking system. Cryptocurrency is a type of safe digital money that is independent of Governments and Central banks. It makes use of a technology called block chain. Cryptocurrency, just like any other type of money can be purchased and traded and may also be kept in online wallets. A decentralized network of computers is used to verify and process transactions, eliminating the need for traditionally used intermediaries - banks.

There are a number of positive impacts of crypto on traditional banking practices, like, making them faster, more secure, and more efficient. Owing to its decentralized nature and no intermediaries, the transactions become cheaper, leading to cost cutting. In addition to this, since it is not subject to any government control, it enhances the chances of investment in those regions where it was earlier not possible, leading to economic growth of such regions. It is also an attractive option for international transaction as no remittance fee is incurred.

Though its advantages are abundant, there are some of its negative impacts on the traditional banking system as well. Firstly, due to the intense volatility of the digital currencies, it becomes an unreliable store of value. Since the price fluctuations are so unpredictable, it becomes difficult for investors to accurately predict their returns while investing. Secondly, since it is decentralized, it faces issues related to security. It is vulnerable to hacking and hence less secure as compared to other centralized banking program. Thirdly, since it is free from government control, any fraud faced by any individual is not subject to strict legal action.

In conclusion, it would be interesting to see if traditional banks adapt and incorporate cryptocurrency into their existing models.

वार्षिक पत्र — हिन्दी विभाग, सेंट बीडस् कॉलेज, शिमला

संस्करण 7 वर्ष 2024

सम्पादिका की ओर से

सेंट बीड्स महाविद्यालय के हिंदी विभाग द्वारा प्रकाशित सत्र 2023–24 का वार्षिक पत्र आप सुधी पाठकों के समक्ष है। हर वर्ष की भांति इस वर्ष भी विभाग ने हिंदी भाषा, साहित्य तथा संस्कृति के प्रचार –प्रसार के साथ ही महाविद्यालय की छात्राओं की भाषा प्रवीणता और सृजनात्मक कौशल के विकास को ध्यान में रखते हुए अनेक गतिविधियों का आयोजन किया। हिंदी सप्ताह, हिंदी दिवस, अंतरराष्ट्रीय मातृभाषा एवं महिला दिवस आदि अवसरों पर विभिन्न गतिविधियों का आयोजन किया गया जिनमें छात्राओं ने बढ़–चढ़कर भाग लिया। इस प्रकार के आयोजन से उन्हें नवीन अनुभव मिलते हैं, वे सिर्फ़ एक छात्रा की दृष्टि से नहीं, बल्कि व्यापक सामाजिक दायरे में भी एक ज़िम्मेदार सदस्य के रूप में अपनी ज़िम्मेदारी के प्रति जागरूक होती हैं। इस साल अंतरराष्ट्रीय महिला दिवस के अवसर पर 'मुझे काटो मत, मुझे रोको मत' पर छात्राओं द्वारा रिज, शिमला के एम्फीथियेटर में मंचित नुक्कड़ नाटक इसका सशक्त उदाहरण रहा। छात्राओं के सृजनात्मक कौशल में वृद्धि के उद्देश्य से कविता लेखन प्रतियोगिता, निबंध, लेख, समीक्षा लेखन, सम्पादन कार्य आदि भी उन्हें सौंपे गए। उनकी इन गतिविधियों में भागीदारी हिंदी भाषा के प्रति उनकी निष्ठा तो दर्शाती ही है, साथ ही मातृभाषा दिवस के अवसर पर अपनी–अपनी क्षेत्रीय बोलियों में कविता–रचना उनकी हिमाचली संस्कृति के प्रति असीम प्रेम भी दिखाती है। साथ ही इस वर्ष विभाग की प्राध्यापिका की उपलब्धियों के साथ–साथ छात्राओं की उपलब्धि इस अंक में प्रकाशित है। हिंदी विभाग द्वारा भाषा, साहित्य एवं संस्कृति के प्रचार में प्रयास अनवरत रहे। यही हमारी कामना है।

G20 भारत 2023 INDIA Y20 भारत 2023 INDIA

इस साल भारत को जी 20 शिखर सम्मेलन की अध्यक्षता करने का सुनहरा अवसर प्राप्त हुआ। यह सभी देशवासियों के लिए गर्व का विषय रहा कि भारत से 'वसुधैव कुटुम्बकम्' का पुरातन नारा वर्तमान वैश्विक राजनीतिक, आर्थिक, सामाजिक–सांस्कृतिक आदि परिस्थितियों को प्रभावित करने की मंशा से दिया गया । इसके बीच 'युवामंथन 20' की योजना के अंतर्गत भारत सरकार द्वारा सभी शिक्षण संस्थानों में छात्रों को इस सुविचार से अवगत कराने के उद्देश्य से अनेक गतिविधियों के आयोजन की पहल की गयी। 'युवामंथन 20' के तहत सेंट बीड्स महाविद्यालय के हिंदी विभाग ने हिंदी सप्ताह 2023 के दौरान एक अंतरयान निबंध प्रतियोगिता का आयोजन किया था जिसका विषय था –"शांति और सद्भावना विकास के लिए अनिवार्य है। "इस अवसर पर छात्राओं द्वारा अभिव्यक्त महत्वपूर्ण विचार आपके समक्ष हैं –

शांति और सद्भावना विकास के लिए अनिवार्य

शान्ति और सद्भावना, ये दोनों तत्त्व एक सुशासित समाज और विकसित राष्ट्र की नींव होते हैं। शांति किसी भी देश की समृद्धि और स्थिरता की जड़ होती है। शांति के अभाव में किसी भी राष्ट्र

APPLE VISION PRO

By Apple Inc

Apple vision pro is a mixed-reality headset developed by Apple Inc. It was announced on June 5, 2023, at Apple's Worldwide Developers Conference, and pre-orders began on January 19, 2024. It became available for purchase on February 2, 2024, in the United States. A worldwide launch has yet to be scheduled. Apple Vision Pro is Apple's first new major product category since the release of the Apple Watch in 2015.

Apple markets Apple Vision Pro as a "Spatial computer" where digital media is integrated with the real world. Physical inputs—such as motion gestures, eye tracking, and speech recognition—can be used to interact with the system. Apple has avoided marketing the device as a virtual reality handset when discussing the product in presentations and marketing. The device runs vision OS, a mixed-reality operating system derived from IOS frameworks using a 3D interface; it supports multitasking via windows that appear to float within the user's surroundings, as seen by cameras built into the headset.

The OS supports avatars (officially called "Personas"), which are generated by scanning the user's face; a screen on the front of the headset displays a rendering of the avatar's eyes ("Eyesight"), which are used to indicate the user's level of immersion to bystanders, and assist in communication.

Designed by Apple:

Apple Vision Pro is the result of decades of experience designing highperformance, mobile, and wearable devices — culminating in the most ambitious product Apple has ever created. Apple Vision Pro integrates incredibly advanced technology into an elegant, compact form, resulting in an amazing experience every time you put it on.
