## **National Webinar on “Bioprospection of Ethnomedicinal Plants of India”**

### **Objectives:**

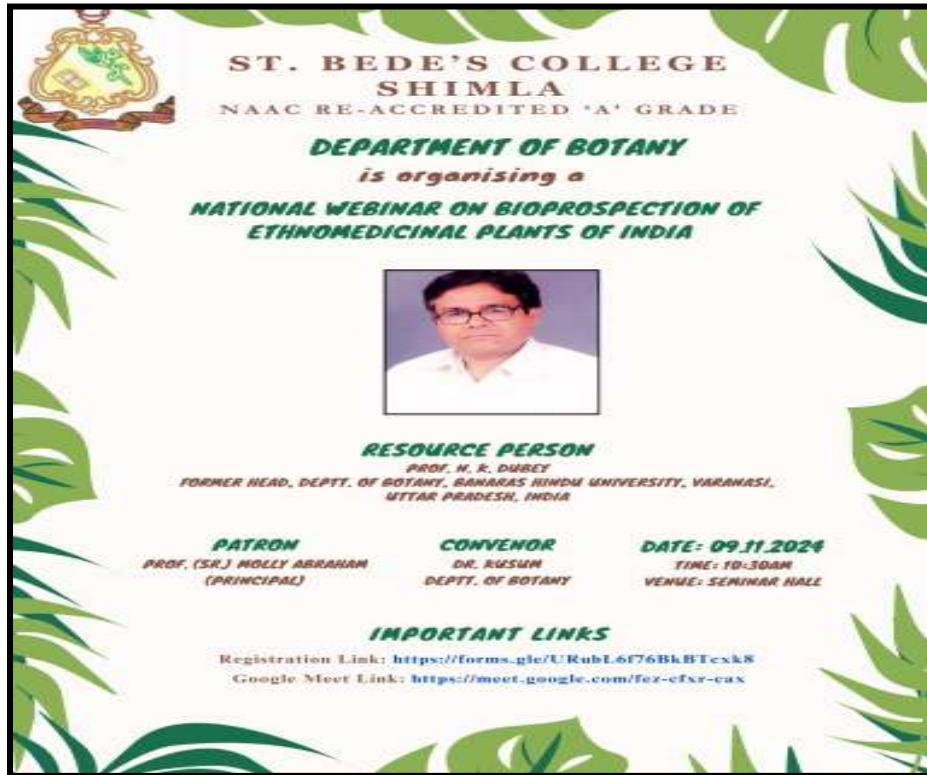

- To provide information about traditional uses of ethnomedicinal plants.
- To apply the acquainted information in modern contexts, particularly in pharmaceutical development.
- To ensure the preservation and utilization of indigenous knowledge about medicinal plants in sustainable manner.

### **Description:**

St. Bede's College, Department of Botany organized a National Webinar on “Bioprospection of Ethnomedicinal Plants of India” on November 9, 2024. The resource person for the webinar was Prof. Nawal Kishore Dubey, an expert from Banaras Hindu University, Varanasi Uttar Pradesh, India. Prof. Dubey shared his extensive knowledge and insights with the students about ethnobotanical uses of several plants species. He also provided an overview of various diseases like Alzheimer, Dementia and Malaria which can be cured by medicinal plants. Additionally, he familiarise the students with various pandemic diseases and their cure with help of the plants. A total of 80 participants from different Colleges and Universities (BHU, AMU, Delhi University and HPU etc.) joined online and 41 students from (M.Sc and B.Sc Botany) St. Bede's College have participated offline in the webinar. Overall the session was very informative and interactive. Students asked their quires regarding ethnomedicinal plants and their conservation measures.

### **Outcomes:**

- Students get acquainted with the traditional uses and the chronic diseases that can be cured with the help of ethnomedicinal plants.
- Participants become aware about the economic and ecological importance of some medicinal plants and their conservation methods.
- Students got opportunity to interact with the participants from different educational institutes of India.
