## ARTIFICIAL INTELLIGENCE

An artificial intelligence is a robot,  
Our intelligence is what makes us human,  
And AI is an extension of that quality,  
Its Artificial but genuine,  
Living like human,  
Not a human but has brain,  
No emotions but teach how to emote,  
Not eating but teach how to cook,  
Not writing but teach how to write,  
Not studying yet it gives tips in studying,  
No diploma but a master in all degrees,  
The master of all, but sometimes meet trouble,  
Like humans, it feels tiresome,  
Just unplugged and open once more,  
Your artificial gadget is the future,  
And the future is here.

## SOCIAL ME (DIE)A

If our lives were defined by our social medias,  
Everything must become way too cool,  
Since, all we post about glammers of life,  
Not the thing that make us look like a fool,  
Would you post about the top that didn't fit?

Or an old album that you absurdly thought, was a hit?  
Perhaps it's a life that makes you belong,  
To a society you had always longed,

It's time to think whether it's right,  
To go after things that might only be looking so bright
