European hegemony & inter-imperialistic rivalries, conflicts within Europe

* What is imperialism?

- ↳ the practice of establishing its rule and dominance over the economic and political life of the people called its pole is called imperialism.
- ↳ may be done through armed conquest or setting up colonies.
- ↳ some countries were expelled over the establishing their sovereignty political dominance over them. Newly independent but industrialized countries are still exploited economically. This process of dominance is known as neo colonialism.
- ↳ the attempt of mercantile countries to establish their sovereignty over agricultural countries is called imperialism.
 - it is usually similar to militarism.
- ↳ the chief characteristics of imperialistic rule are:
 - the foreign rulers are a minority and try to impose the superiority of their race and culture on the majority of the nations who are backward or suffer from an inferiority complex and have a non-industrial economy.

Imperialistic type:

- Imperialism
- New imperialism

Assignment 1

Ques Discuss the features of Javascript

Ans Features of Javascript are :-

(a) Object oriented script language
This feature built in object as Javascript has a window object. It is mostly used for features like Polymorphism which is equality of taking a subject in many forms. Eg - Java Script and Visual Basic etc

(b) Client Edge Technology
The client is basically a term used for the browser in respect of user. The data we store gets uploaded by a client which is later used by user in browser form. The user get access to client through a web browser for surfing & interacting through websites. The client side technology in Javascript allows client to have full control over content which is being updated in browser.
