

Community Outreach Activities 2017-18

“Save Honey Bees”: A Presentation at Theog School.

August 5, 2017

A presentation on Save the Honey Bee, was delivered to the children of Government Senior Secondary School, Theog by the students of the college. They explained the importance of a safe habitat for the bees and how one could go chemical free. The children were made to realize the importance of planting more trees and plants for the survival of the bees. The students had an interactive session and they asked the children questions related to nesting material and food sources for bees in their locality. Easy ways to save the bees was discussed with these children. A short documentary on Bees was also shown to them. It was a productive and enlightening session for the children.
