Research Development Cell

Dated: 15 September 2022

Minutes of Meeting

A meeting of members of Research Development Cell was held on 15.09.2023 at 11 A.M. in the Principal office. The chairperson began by welcoming the new members of the cell and initiating discussions on the following agenda:

- New research projects
- Applying for DBT STAR college scheme
- Applying for CURIE Proposal for PG classes
- Organising International/ National Conferences/Seminar/workshops

The meeting began with the discussion that there is a need to explore new research projects by faculty members and apply for grants to fund them.

The members then initiated the discussion by explaining the importance of applying for the DBT STAR college scheme to promote research in the college. The attendees discussed the eligibility criteria and the requirements for the scheme. It was decided that a committee would be formed to coordinate the application process.

The members then turned their attention to the CURIE Proposal for PG classes. It was decided that a separate committee will be formed which will be responsible for preparing the proposal for the CURIE scheme.

The discussion then shifted to the organization of international/national conferences, seminars, and workshops. The group acknowledged the value of such events in promoting academic collaboration and knowledge sharing. The members discussed potential departments and themes for upcoming events and suggested inviting renowned speakers to participate.

Overall, the meeting was productive and highlighted the importance of research and academic collaboration.
