

## **BA ECONOMICS HONOURS**

### **COURSE OUTCOMES**

#### **COURSE CODE ECONHA101**

#### **COURSE TITLE: INTRODUCTORY MICROECONOMICS**

##### **Course Outcomes**

1. Demonstrate a deep knowledge and understanding of fundamental microeconomic concepts, theories, and models.
2. Communicate economic concepts effectively in both written and oral forms, facilitating clear and concise explanations of complex ideas.

#### **COURSE CODE ECONHA102**

#### **COURSE TITLE: MATHEMATICAL METHODS IN ECONOMICS – I**

##### **Course Outcomes**

1. Exhibit strong quantitative skills, including proficiency in mathematical and statistical techniques.
2. Apply mathematical techniques to solve economic problems and analyse economic models.

#### **COURSE CODE ECONHA103**

#### **COURSE TITLE: INTRODUCTORY MACROECONOMICS**

##### **Course Outcomes**

1. Demonstrate a deep knowledge and understanding of fundamental macroeconomic concepts, including aggregate macroeconomic variables such as GDP, money, and inflation.
2. Apply critical thinking to interpret economic graphs, and real-world situations, leading to informed decisions on economic trends and policies.

#### **COURSE CODE ECONHA104**

#### **COURSE TITLE: MATHEMATICAL METHODS IN ECONOMICS – II**

##### **Course Outcomes**

1. Recall and exhibit strong quantitative skills, including proficiency in mathematical techniques.

2. Explain the principles of mathematical reasoning and how they can be applied to economic theory.

**COURSE CODE ECONHA201**

**COURSE TITLE: INTERMEDIATE MICROECONOMICS – I**

**Course Outcomes**

1. Communicate economic concepts effectively in written and oral forms with clear explanations.
2. Apply microeconomic principles to analyse and solve real-world economic problems related to individual decision-making, market behaviour, and competition.

**COURSE CODE ECONHA202**

**COURSE TITLE: INTERMEDIATE MACROECONOMICS - I**

**Course Outcomes**

1. Recognize and analyse the primary factors influencing output and employment levels within the framework of macroeconomic analysis.
2. Utilize macroeconomic theories and models to evaluate the repercussions of diverse economic policies on output, employment, and other macroeconomic indicators in both closed and open economies.

**COURSE CODE ECONHA203**

**COURSE TITLE: STATISTICAL METHODS FOR ECONOMICS**

**Course Outcomes**

1. Recall and define fundamental statistical concepts, terminologies, and principles introduced in the course, including the basics of probability, probability distributions, and various sampling techniques.
2. Demonstrate a comprehensive understanding of the relationships between probability theory, statistical inference, and sampling techniques in the context of economic analysis.

**COURSE CODE ECONHA204**

**COURSE TITLE: INTERMEDIATE MICROECONOMICS II**

**Course Outcomes**

1. Demonstrate a comprehensive understanding of the principles and concepts related to general equilibrium and welfare in microeconomics.
2. Utilize economic models to evaluate the efficiency and equity of different market structures and policies.

**COURSE CODE ECONHA205**

**COURSE TITLE: INTERMEDIATE MACRO ECONOMICS II**

**Course Outcomes**

1. Comprehend the micro-foundations underlying aggregative concepts discussed in the previous course.
2. Apply economic theories and models to analyse and explain the determinants of long-term economic growth and the role of technological advancements.

**COURSE CODE ECONHA206**

**COURSE TITLE: INTRODUCTORY ECONOMETRICS**

**Course Outcomes**

1. Demonstrate a thorough understanding of basic econometric concepts, including hypothesis testing, estimation, and diagnostic testing in the context of simple and multiple regression models.
2. Apply statistical techniques and econometric methods to analyse real-world data, formulate hypotheses, and estimate regression models to test economic theories and relationships.

**COURSE CODE ECONHA301**

**COURSE TITLE: INDIAN ECONOMY – I**

**Course Outcomes**

1. Examine and analyse major trends in economic indicators in post-Independence India.
2. Create well-structured arguments and discussions based on the synthesis of economic trends, policies, and historical context.

**COURSE CODE ECONHA302**

**COURSE TITLE: DEVELOPMENT ECONOMICS - I**

**Course Outcomes**

1. Comprehend the Aggregate models of economic growth and their relevance in cross-national comparisons of growth experiences.
2. Expanding knowledge on development indicators and their measurements techniques.

**COURSE CODE ECONHA303**

**COURSE TITLE: INDIAN ECONOMY II**

### **Course Outcomes**

1. Comprehend major policy debates and their significance in the Indian context.
2. Develop a comprehensive understanding of sector-specific policies and their role in shaping key economic indicators in India.

### **COURSE CODE ECONHA 304**

### **COURSE TITLE: DEVELOPMENT ECONOMICS II**

### **Course Outcomes**

1. Develop a solid understanding of an environmental issues, sustainable development and the economic challenges posed by poverty and unemployment.
2. Identify and comprehend the key aspects of trade policy and the fundamental components of the global international trade framework.

### **COURSE CODE ECONHA306**

### **COURSE TITLE: ECONOMIC HISTORY OF INDIA 1857 – 1947**

### **Course Outcomes**

1. Critically evaluate the long-term effects of British colonial rule on India's economic development, including its implications for post-independence economic policies.
2. "Develop a deeper understanding of India's economic history and its impact on the country's development."

### **COURSE CODE ECONHA307**

### **COURSE TITLE: ECONOMY OF HIMACHAL PRADESH**

### **Course Outcomes**

1. Develop a clear understanding of the fundamental features and unique characteristics of the Himachal Pradesh economy.
2. Analyse the economic challenges and opportunities specific to the Himachal Pradesh region.

### **COURSE TITLE: INTERNATIONAL ECONOMICS**

### **Course Outcomes**

1. Develop a comprehensive understanding of the fundamental models that explain the composition, direction, and consequences of international trade.
2. Analyse the economic theories and models related to international trade to evaluate their applicability in real-world scenarios.

**COURSE CODE ECONHA311**

**COURSE TITLE: ECONOMIC SYSTEMS**

**Course Outcomes**

1. Develop a fundamental understanding of different economic systems, including market economies, planned economies, and mixed economies.
2. Distinguish between various economic systems based on their key features and functions.

**COURSE CODE ECONHA208**

**COURSE TITLE: PUBLIC FINANCE**

**Course Outcomes**

1. Develop a foundational understanding of government finances, taxation systems, and fiscal policies at the central, state, and local levels in India.
2. Gain insight into the efficiency and equity consideration related to taxation and public expenditure.

**COURSE CODE ECONHA209**

**COURSE TITLE: MONEY AND BANKING**

**Course Outcomes**

1. Develop a foundational understanding of the theory and functioning of monetary and financial sectors within the broader economy.
2. Comprehend the organizational structure and roles of financial markets and institutions.
