

## **SESSION ON BASICS OF ADOBE PHOTOSHOP**

An interactive session on the basics of Adobe Photoshop was conducted by Mr. Nishant Sharma on 25.09.2023 for the students of BCA 3rd semester.

**Objective:** The objective of the session was to make students aware of the basics of graphic design. This will help the students to create content using digital media.

**Outcomes:** The students got an idea of how to work with layers and learn how to crop, transform and edit existing images.

## **INTER-COLLEGE LECTURE CUM WORKSHOP ON “DIVERSITY IN CHEMISTRY”**

On December 4, 2023, five students from the Department of Chemistry (Shreya Sharma, Khusboo, Chanshel Chandel, Sanyogita, and Riya Chauhan) attended the Inter-College Lecture Cum Workshop On "Diversity In Chemistry" organized by the Department of Chemistry, Govt. College Sanjauli, Shimla-6 Himachal Pradesh.

**Objective:** The main aim of participating in this activity is to educate students about the diversity of chemistry. Students will gain experience for upcoming exams through quizzes, debates, and lectures.

The event began with a debate competition in which teams from four colleges of Shimla district participated. In this debate competition, two students Shreya Sharma and Chanshal Chandel from B.Sc. 3rd year has delivered their views on the topic “Plastic is a boon or

Curse". The debate competition is followed by the lecture of Dr. Sandeep Chauhan, Associate Professor, Department of Chemistry, HPU Shimla. The lecture was very informative and full of knowledge for the students. He shared his knowledge about green chemistry and how he has implemented the green chemistry principles in his research of polymer chemistry. He also shared his recent publications with the students and narrated the science students as today's scientists. After the lecture, a quiz competition was held in which four teams participated. In this chemistry quiz competition, St. Bede's College took the 2nd position. The participants of the quiz from St. Bede's college are Khushboo Sharma from B.Sc 3rd year, Riya and Sanyogita from B.Sc 2nd year.

**Outcome:** Students of the department develop confidence after participating in the debate and quiz. The lecture provided in-depth information of the significance of polymer chemistry. Students were get inspired to conduct research.
