Research and Statistics Classes for PG Student's:

The Research Development Cell in collaboration with Post Graduate Courses (Science, English & Commerce) of St. Bede's College, Shimla organise two research and statistical classes for PG students weekly. The lectures for these classes are delivered by Dr. Ashwani (Assistant Professor), Department of Physical Education which focus on basic concepts in research methodology and statistics. These classes enable students to take, collect, edit and analyse the research projects. These types of activities develop research aptitude in students and facilitate learners' prosperity in higher education.

Objective:

- To develop research aptitude among students.
- To enable students to take up and implement a research project/study.
- To facilitate learners' prosperity in higher education.
